ABOUT THE GMCM

Where Knowledge Meets Compassion

Government Medical College, Mahabubnagar, was established in 2016, becoming the first government medical college established after the formation of Telangana State in 2014.

As GMCM celebrates 10 years of excellence, it continues its journey of medical education, clinical training, and service to society, guided by the values of compassion, integrity, discipline, and respect.

With five batches of medical graduates contributing to its legacy, our students embody dedication, obedience, and a commitment to learning. Beyond academics, GMCM nurtures talent, teamwork, and creativity through sports and cultural activities.

At GMCM, education extends beyond classrooms and clinical wards, shaping future doctors through knowledge, empathy, and responsibility. Our institution encourages students to uphold the dignity of the medical profession, respect their mentors, serve patients with compassion, and contribute meaningfully to society.

As we step into a new decade, GMCM continues to inspire young minds to learn with purpose, lead with integrity, and serve humanity with pride.

A DECADE OF LEARNING. A LEGACY OF SERVICE. A FUTURE OF EXCELLENCE.

REGISTRATION

299/-

- Basic registration is mandatory for all delegates who wish to attend CORTEX.
- Prior registration is mandatory for participation in all events.
- PLEASE NOTE THAT THE BASIC REGISTRATION FEE IS NON-REFUNDABLE.

ANATOCRAFT

Anatocraft is where medicine meets creativity and innovation! Bring the fascinating world of medicine to life through stunning 3D models of anatomical structures, organ systems, pathological conditions, surgical procedures, and other medical concepts.

ANATOMANIA

Anatomania – Challenge your mind with hands-on medical puzzles! Assemble anatomical structures, piece together organs, and solve exciting medicine-themed physical puzzles. Put your knowledge, logic, and problem-solving skills to the test!

SILENT SYNDROME

The silent syndrome – Bring medicine to life without saying a word! Act out medical terms, diseases, procedures, and anatomical concepts while your teammates race to guess. No words, just gestures, medical knowledge, and loads of fun!

CONTACT:- Kanika - 7355290319

MED GRID

Med grid – Put your medical vocabulary to the test! Crack the clues, uncover hidden medical terms, and fill in the grid with words from anatomy, diseases, and beyond. Think fast, connect the clues, and complete the challenge!

CASE CHRONICLES

The Case chronicles – Step into the shoes of a doctor! Analyse clinical clues, interpret symptoms, and put your diagnostic skills to the test.

MED BLUFF

Med bluff – Can you spot the odd one out? Put your medical knowledge and observation skills to the test as you uncover the imposter hidden among medical terms, concepts, and clues. Trust your instincts, think sharp, and expose the bluff!
